## PROPOSED AMENDED CLAIMS

VIA FACSIMILE 571 273 8300 Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450 Sir

This paper submits proposed amended claims 1 and 5 in view of and in response to the Office Action dated April 15, 2008.

## Proposed amended claims 1 and 5

1 (Currently amended). An electronic component made from primarily organic material, comprising:

[[a]] an electrically insulating substrate and/or lower layer having a depression formed by a laser; and

at least one electrical conductor track and/or electrode in the depression, the depression having steep walls, sharp contours and a relatively rough bottom surface, the at least one conductor track and/or electrode comprising at least one electrically conductive material for interconnecting electrical components on the substrate.
